

Assignment for EEE 452

Fall 2022

Section 4

Objective: Improving articulation, visualization and communication ability, which is vital for engineering management role.

Assignment: Develop 3-minute animated video on the given article, explaining the content in the form of variables and their dynamic relation, subtitles and examples.

- For creating an interest to watch it, use facts, contradiction and questions at the beginning.
- The video should finish in creating curiosity to know the topic more.

Tools: Animation and video features of Microsoft Power Point.

Team size: 1

Assistance: TA

Marks: 10

Assessments: Just after the Mid-exam (5 marks) and before the Final-exam (5 marks)

Sample: <https://www.youtube.com/watch?v=xguam0TKMw8>
